# Context

## Problem Space

Working from home is the new normal and it is here to stay. In an international survey of 2285 remote workers, 71% of managers and employees desire work-from-home options even after the pandemic is over<sup>1</sup>.

However, working from home can intrude both physically and psychologically on family time, blurring the boundaries between home and work, and encourages overwork and work preoccupation<sup>2</sup>. The lack of dedicated workspaces, competing priorities at home, and increase in distractions lead to more mental fatigue and poor mental well-being.

## Key Insights

Professionals feel mentally healthy when they can do their best at work and take care of themselves

Working from home increases mental fatigue by making it difficult for professionals to separate their different life roles and responsibilities.

Professionals who work in a shared living space experience more mental fatigue when they have to adapt to find privacy and avoid distractions.

# What is Lumina?

## Lumina is a flexible digital space divider

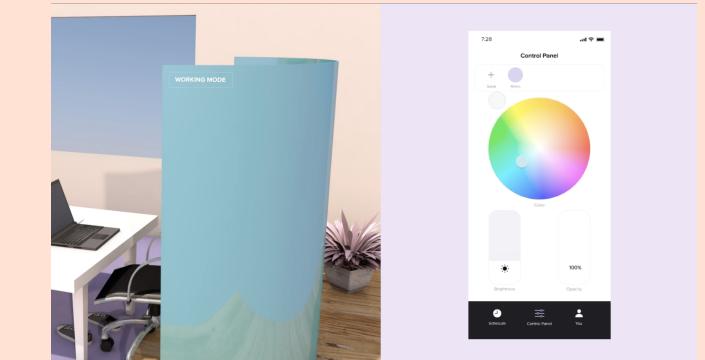

It helps create a personal work environment that promotes mental well-being, establishing both physical and mental separation in your workspace. It gives you more privacy, less distractions, and better boundaries between your work and home.

Through either Lumina's interactive control panel or mobile app, you can adjust Lumina's color, opacity and brightness to suit your mood. Also, you can schedule Lumina to change at scheduled times to remind you to take breaks throughout the day.

By creating a dedicated, customizable space to work, we hope to support people who are working from home and foster a work environment that promotes mental well-being.

#### 4/ Key Path User Flow

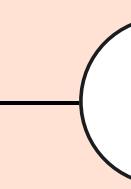

**Receive Lumina**

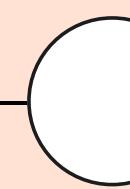

**Unpack Lumina**

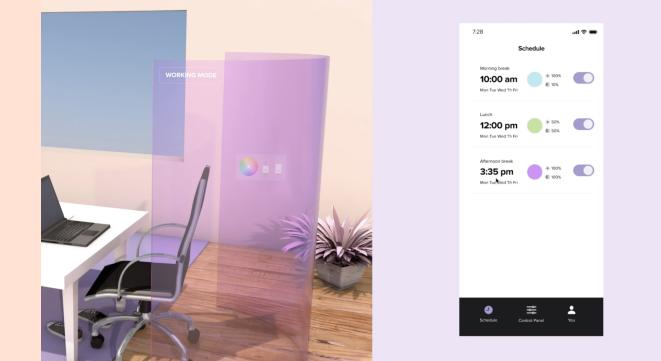

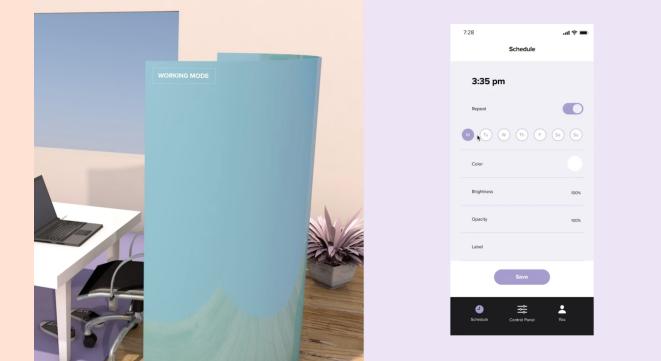

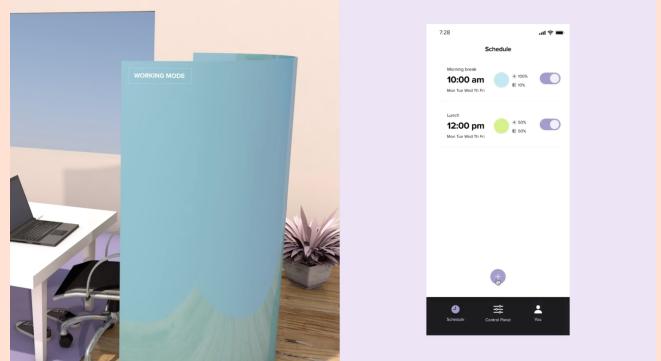

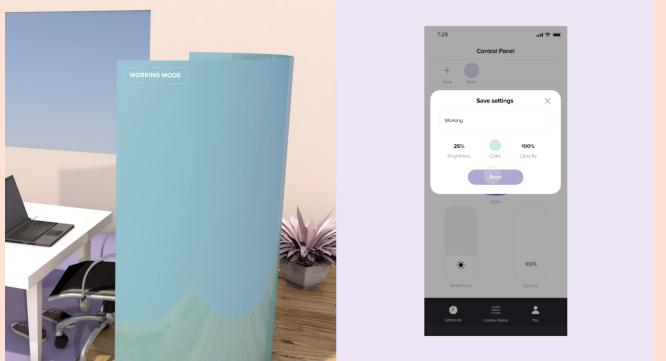

**Position Lumina  
in workspace**

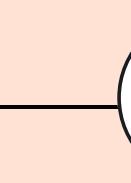

**Adjust the  
brightness & opacity**

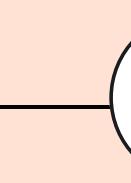

**Change the  
color**

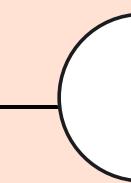

**Save settings**

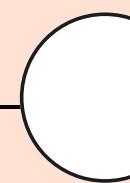

**Add scheduled  
break**

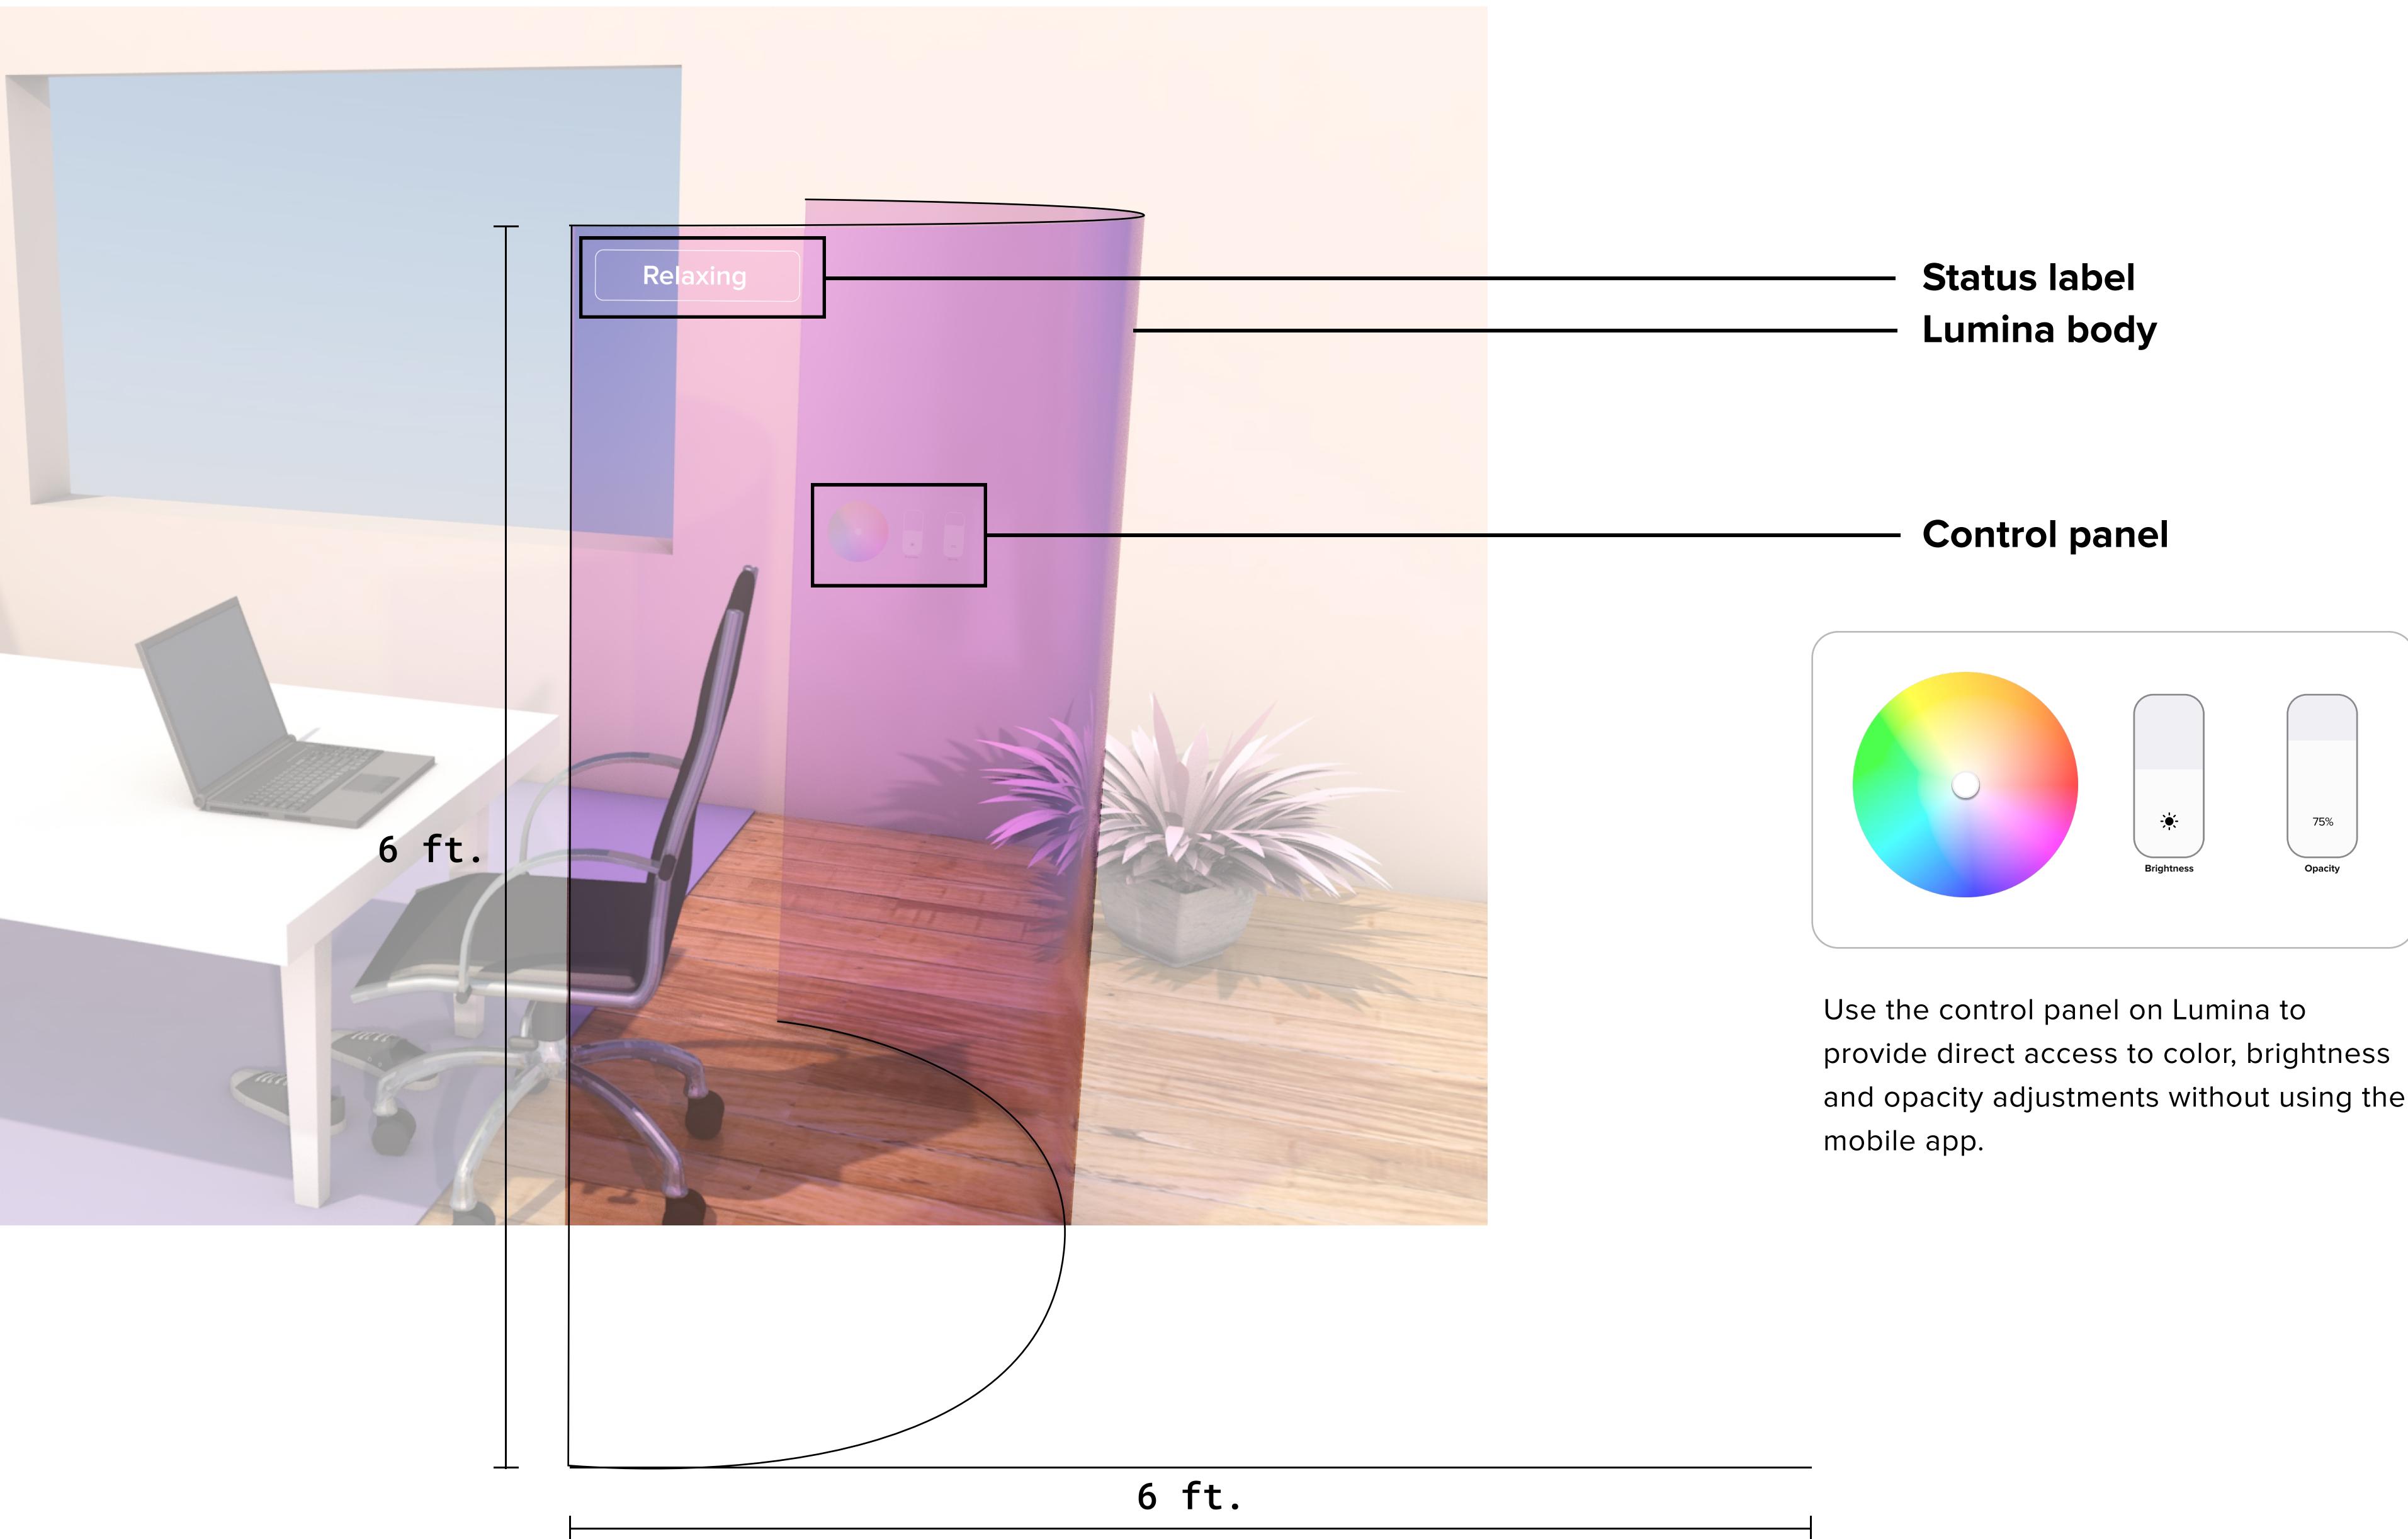

**Personalize break**

**Save break**

**Communicate  
availability status**

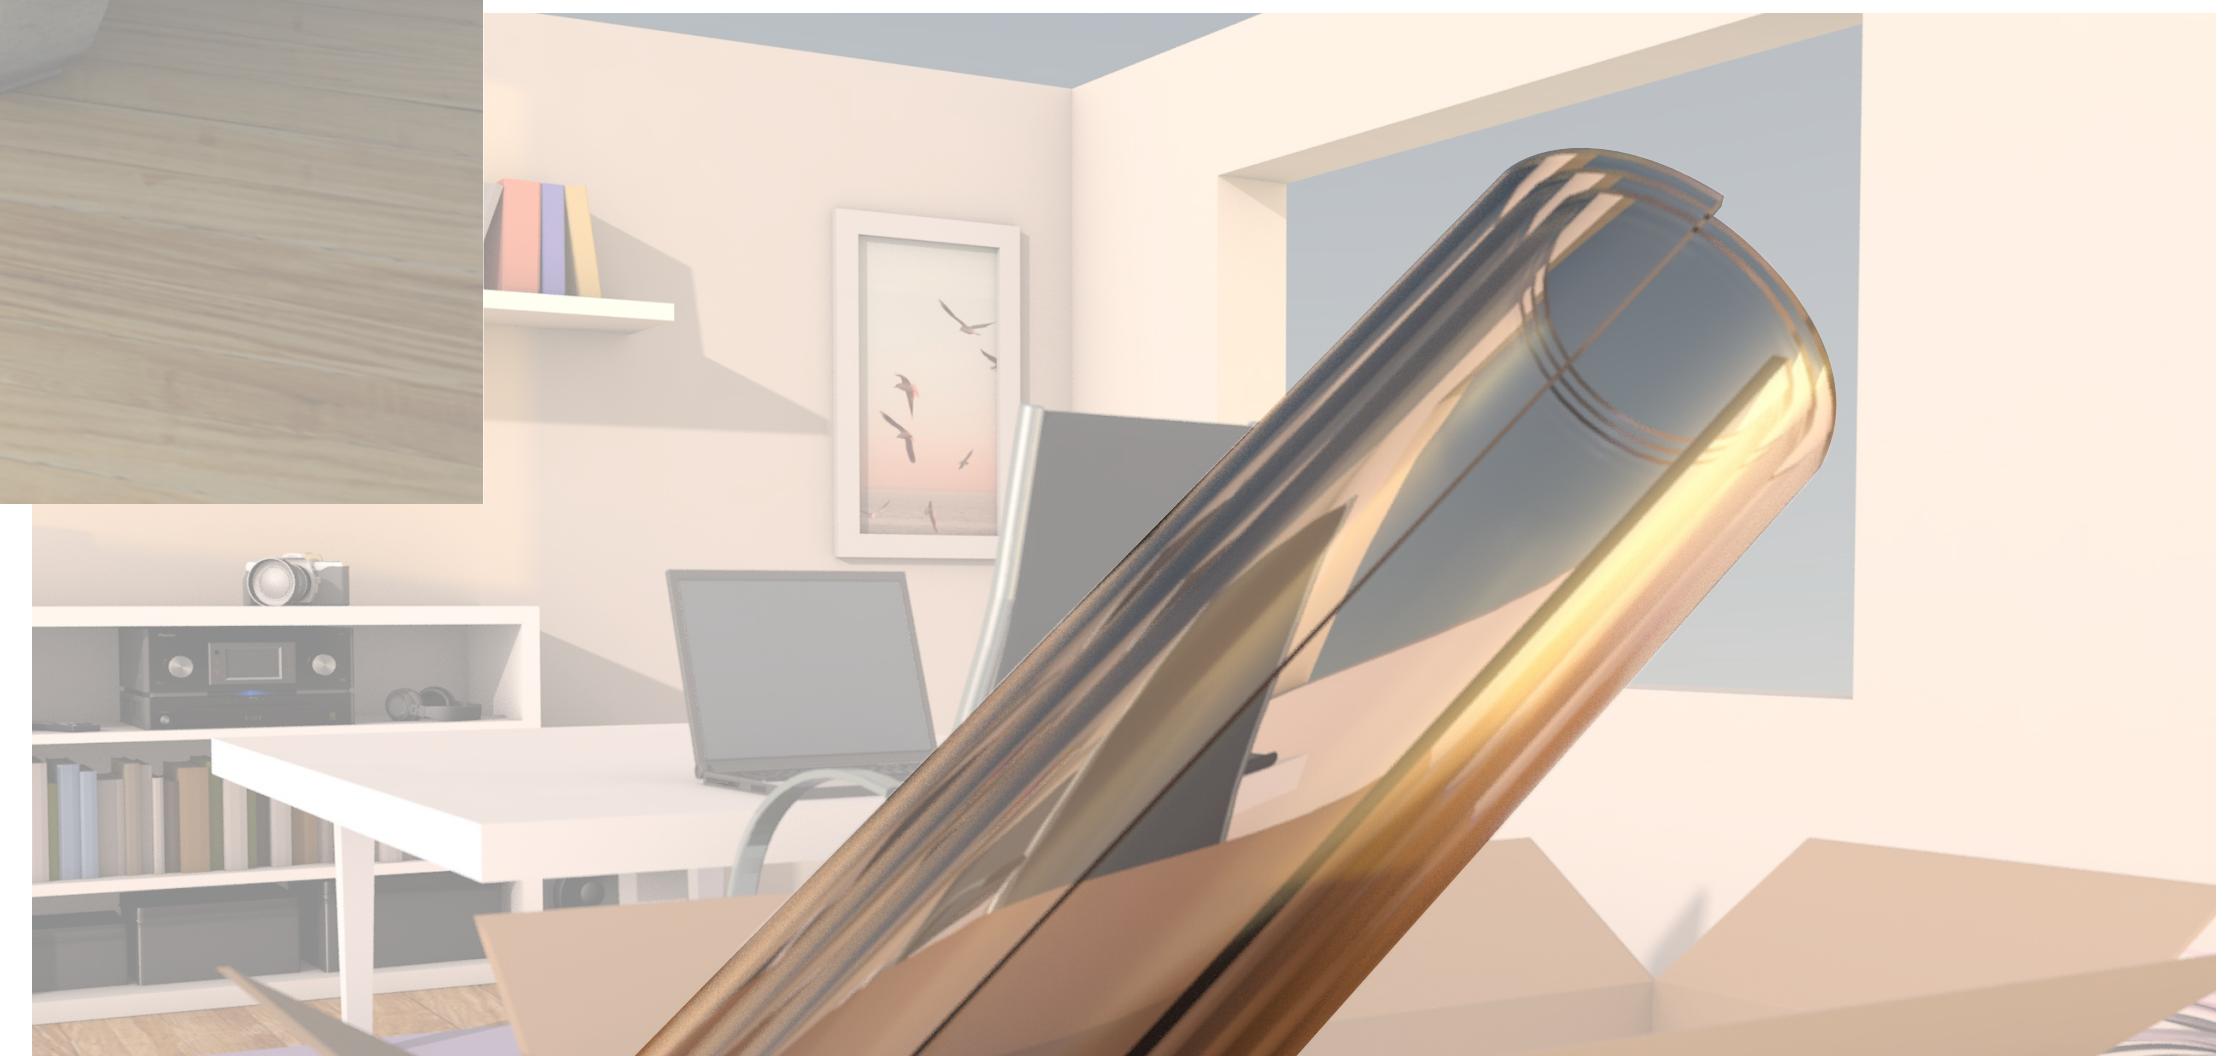

### Alternative sizes

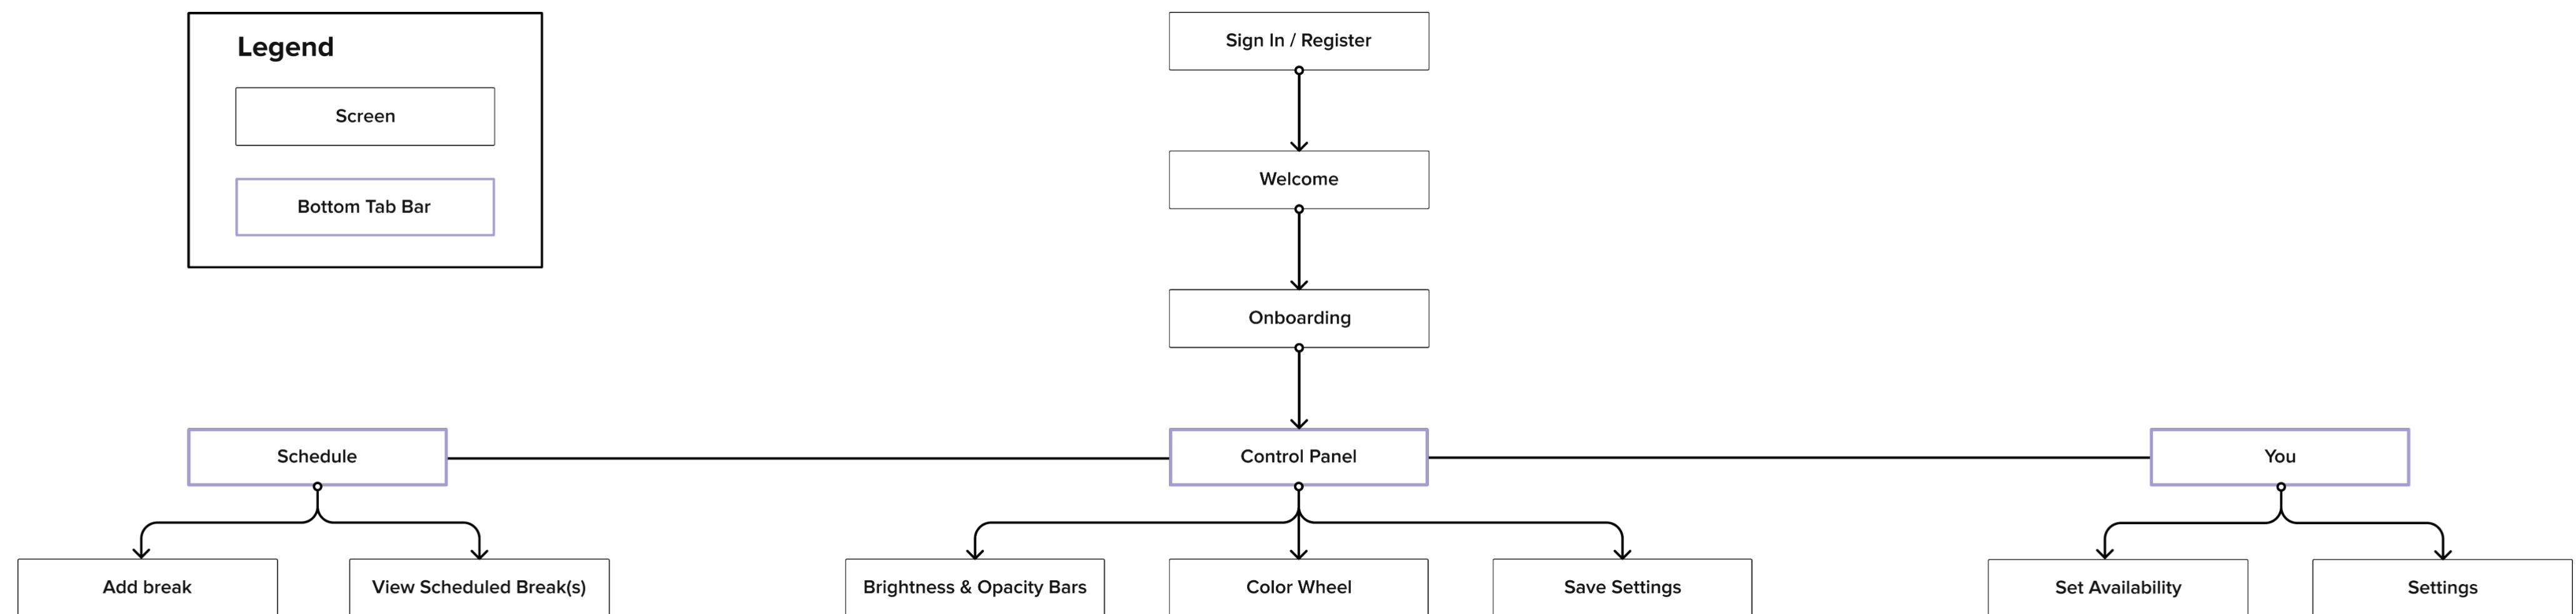

Lumina will be available in multiples sizes to fit different workspaces and homes. Pictured here is a 4' x 3' desktop size.

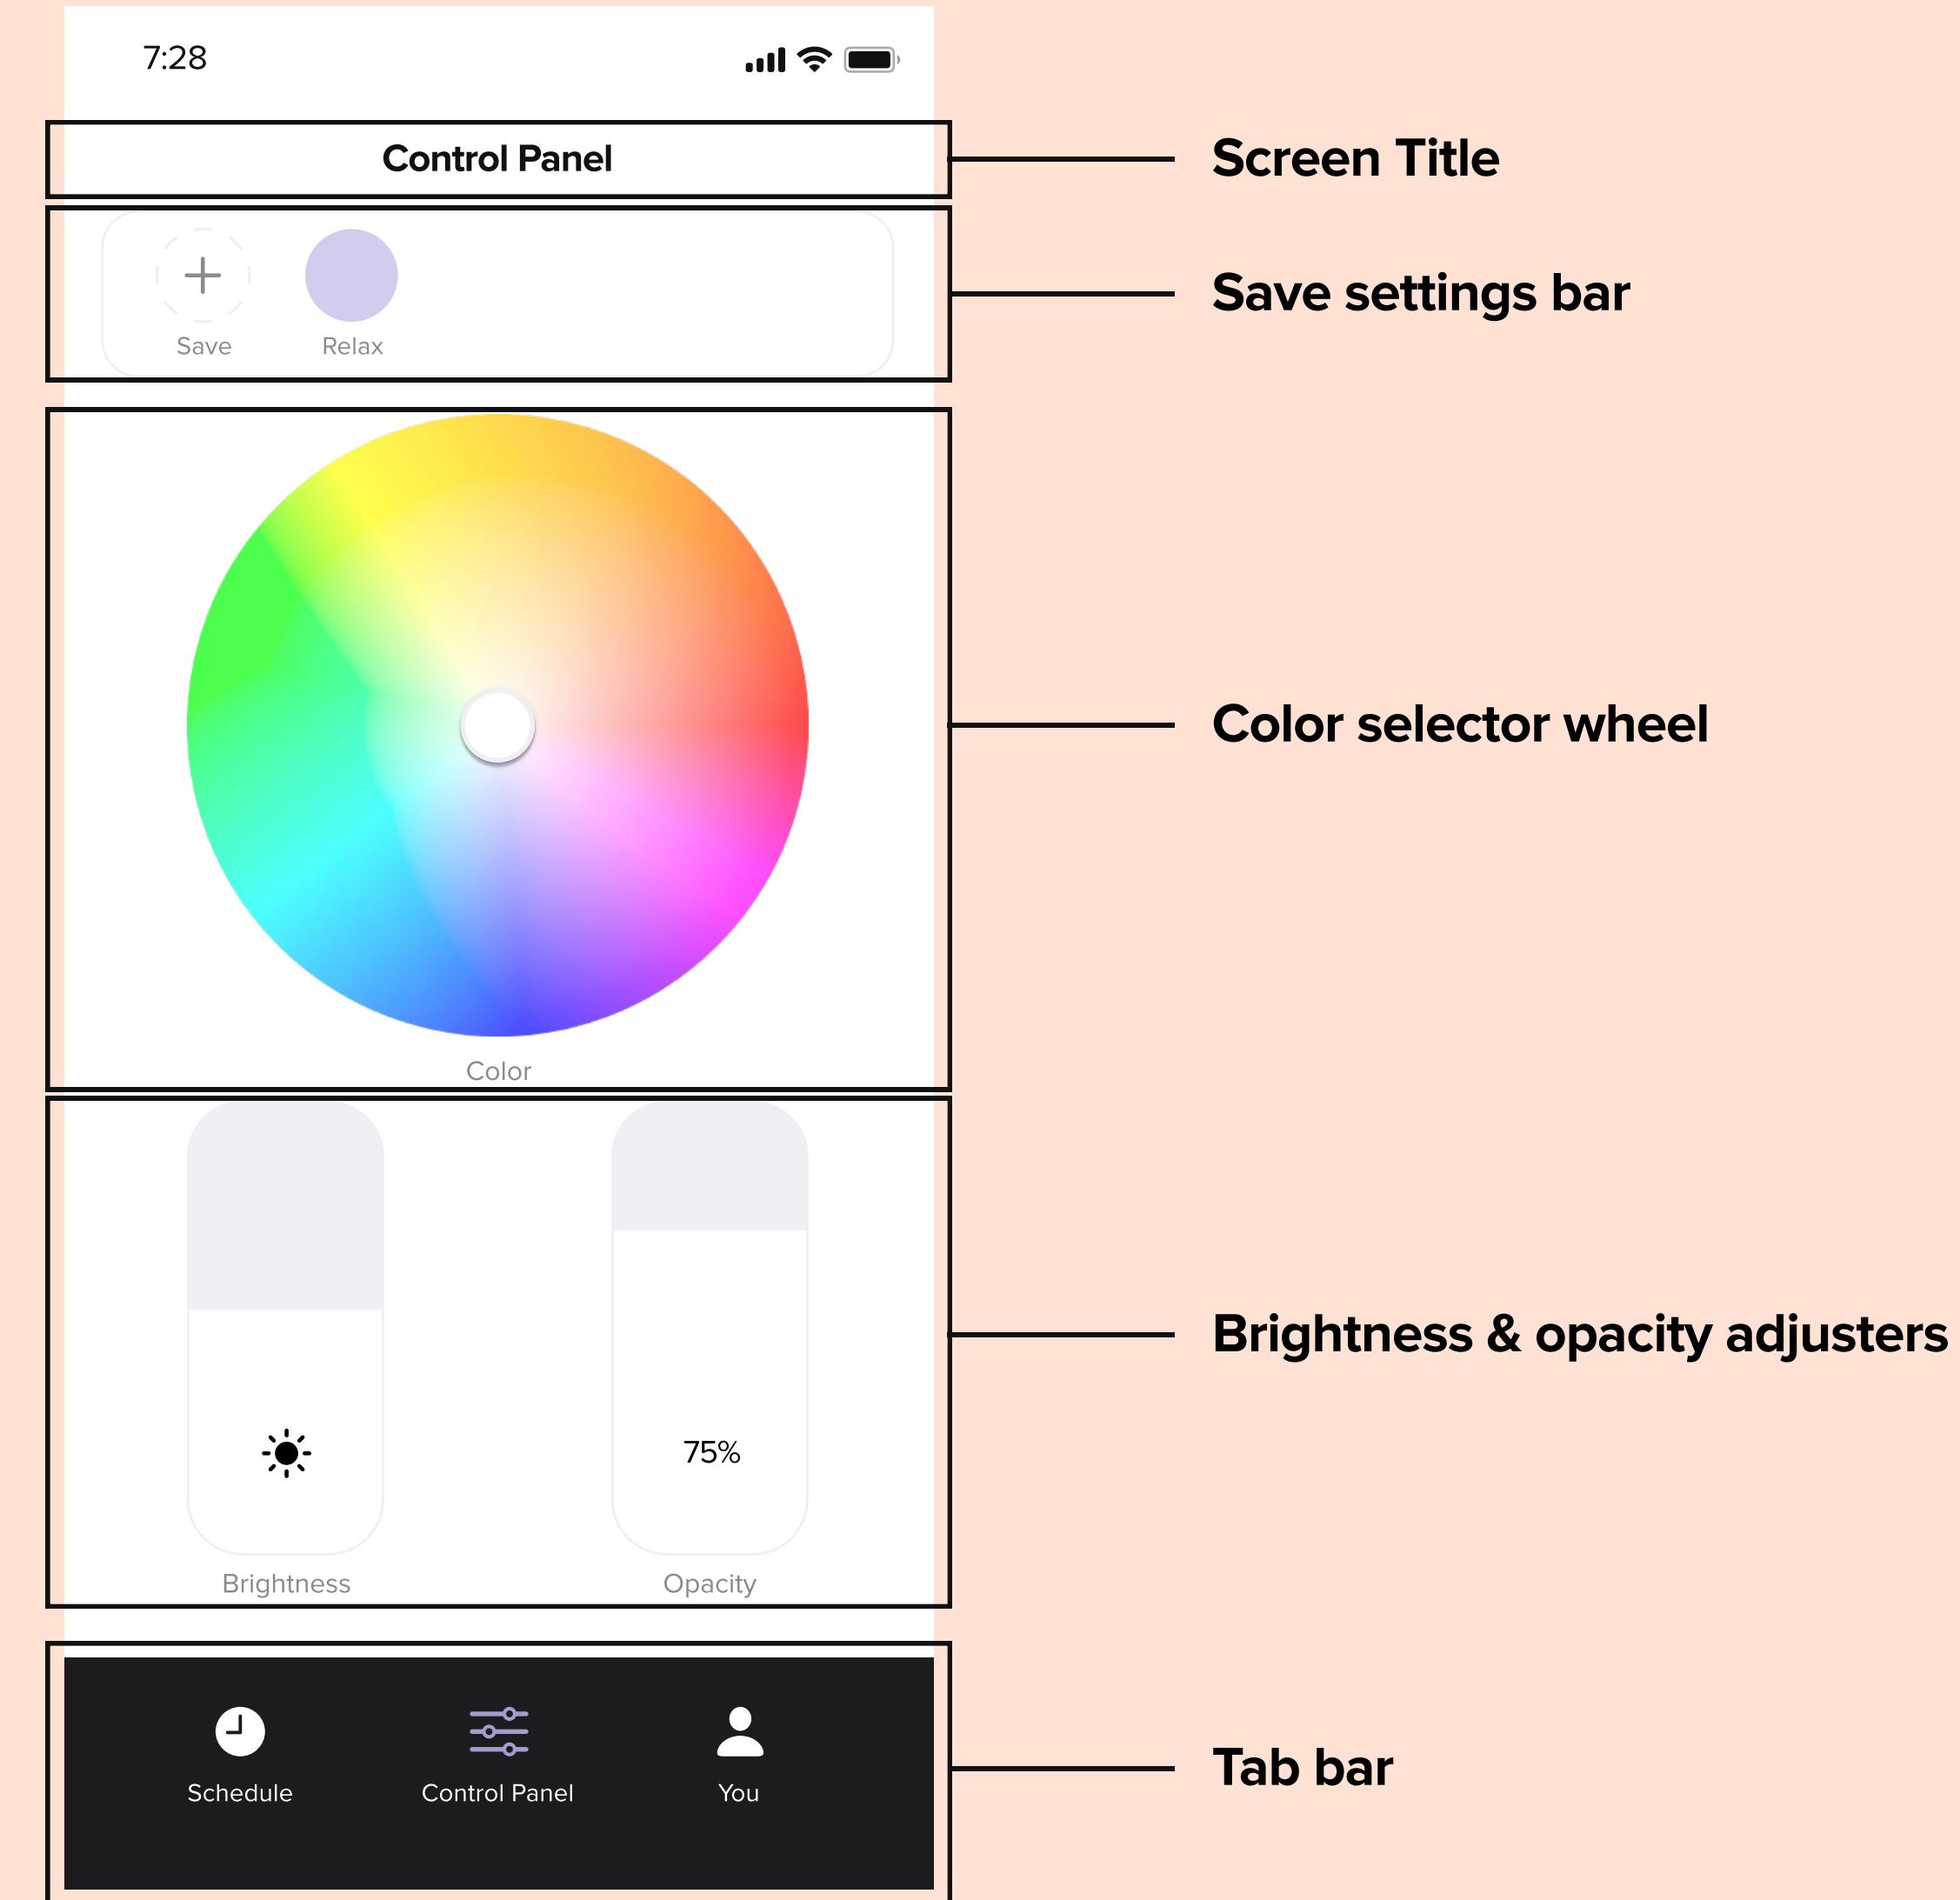

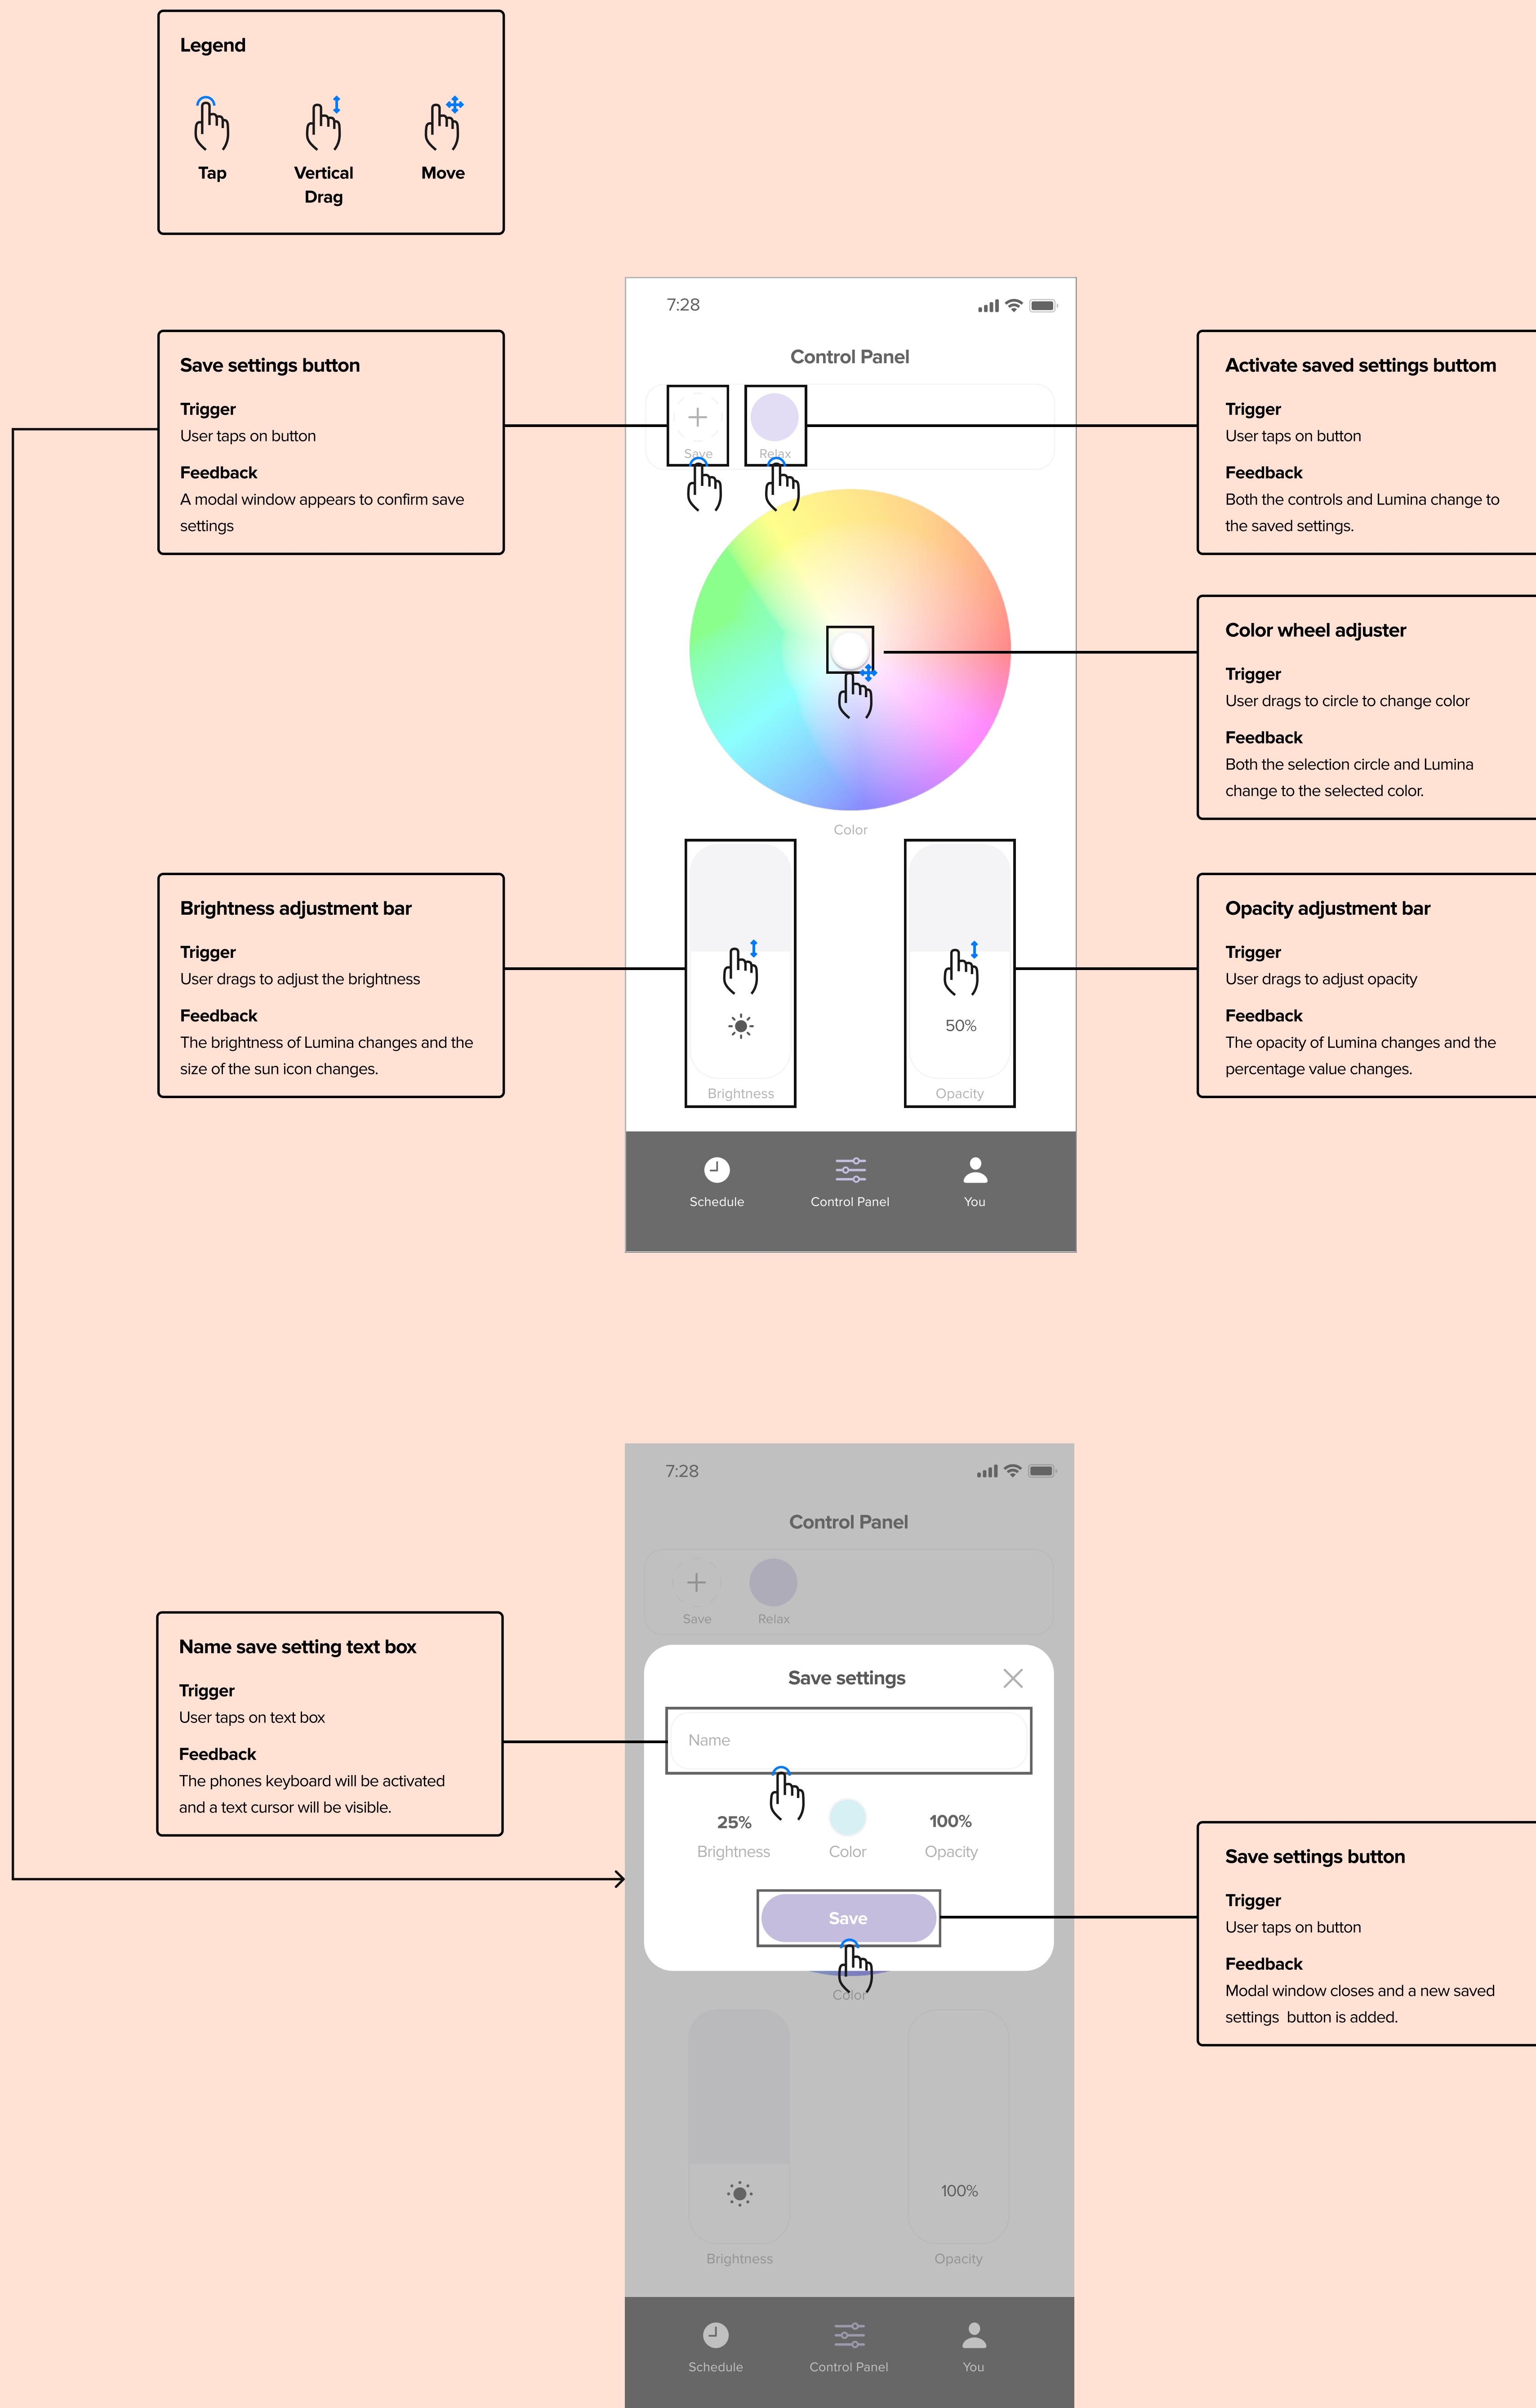

## Material

Lumina is made from a flexible, thin specialized plastic, which can change color from completely clear to a range of vibrant hues. The lights and colors will come from the thin LED mesh that's embedded inside Lumina.

Lumina can be set to change color, brightness, and opacity at scheduled times throughout the day.
